

In art series there are 3 models. Mirror effected aluminium panels , elliptic perforation and crystal perforation can be integrated in all ceiling systems. These models founded in 2018 and the carrier systems are easy to install in building site. These systems are modular , so it's easy to make changes on the mechanical system inside the ceiling.

MIRROR EFFECT

ELYPTIC

CRYSTAL

RAW MATERIAL	THICKNESS	SIZE	COLOR	SYTEM
Aluminium / Steel	0,60 mm- 0,70 mm	600 x 600 mm	Depends On Your Project	Hook-on, Clip-in , Lay-on
